SARA MEEKS PT, MS, GCS, KYT

I HAVE A DREAM

I have a dream that someday every person, regardless of age, gender, ethnicity, lifestyle or any other factor, who has any musculoskeletal condition (including Osteoporosis and/or Osteopenia) will be able to enter any facility or class where exercise and movement are being taught, and that person will be given a program that is #1 **SAFE**. Hopefully, that program will also be effective and improve a person's over-all well-being and quality of life.

This is NOT the case today.

When you experience my seminar, you will find out why and, as you learn new principles of movement and exercise designed for skeletal health and safety, you can help me fulfill my dream.

As many others have done, you, too, can become a Dreamer!

Sara

- has developed a 12-point, comprehensive, site-specific, SAFE, effective program of exercise and movement based on REVERSAL of The Patterns of Postural Change© (see diagram below) that occur AS, but not BECAUSE, people age.
- founded the Special Interest Group on Bone Health, Section on Geriatrics, APTA
- has taught all or part of this seminar at both APTA Annual Conference and CSM, in Canada, Australia, India, Italy, Hungary, Czech Republic, Poland and at Mayo Clinic, Cleveland Clinic, Kaiser Permanente, Johns Hopkins and Ohio Health

and is

- a pioneer in the field of postural correction and body alignment
- the recipient of the Section on Geriatrics Excellence in Clinical Practice Award
- a Physical Therapy Consultant for Osteoporosis Canada's BoneFit program,
- an international presenter to health professionals and the public on posture, body alignment and bone health.

With over 53 years of clinical experience, 31 of those years focusing on the management of persons with low bone mass, and diagnosed with osteoporosis herself, Sara brings passion, wisdom, humor and a distinct sense of mission to her seminars.

Come and find out why therapists and other health professionals are giving positive feedback such as this:

"I no longer feel like a deer in the headlights when I see my next post compression fracture patient." M.H., PT PA

THE MEEKS METHOD™

A COMPREHENSIVE EXERCISE & MOVEMENT APPROACH TO BONE HEALTH LEVEL 1 FUNCTION FOLLOWS FORM

OBJECTIVES

Upon Completion of this Course, Participants will be able to:

1. Articulate information on the diagnosis, first signs and risk factors, epidemiology and pathology of Osteoporosis and Osteopenia.
2. With a Pre-Assessment, know how to identify people who may be at risk in their clinic.
3. Know why the interventions for normal bone, osteopenia and osteoporosis would be essentially the same but how they might differ according to the clinical condition of the patient.
4. Articulate elements of a thorough assessment with tools that can be used to measure progress.
5. Apply the concept of the Patterns of Postural Change© to exercise prescription.
6. Know the principle of Isolate-Activate-Integrate—apply these principles to exercise prescription..
7. Instruct Postural Correction, Balance & Gait Training according to The Meeks Method
8. Identify specific treatment guidelines and considerations for patients in all settings.
9. Understand the importance of/be able to instruct patients in safe ADL's and body mechanics
10. Be familiar with suggested use of modalities and treatments to augment the exercises.
11. Know when/how to make referrals to other health professionals.
12. Apply concepts of safety and advise patients on advanced exercise programs.

COURSE OUTLINE

DAY 1

7:30—8:30 AM Registration/Continental Breakfast
8:30 AM — 5:30 PM

Introductory Information
Laying the Foundation
Gait-Posture-Balance
Site-Specific Exercise

DAY 2—8:30 am—5:30 pm

Patient Pre-Assessment and Assessment
Site-Specific Exercise
(Includes Resistance Band and Foam Rollers)

General Exercise Guidelines

ADL's

Standing Wall Exercises & Exercise Demos

Gym & Fitness; Modalities
